**IN THE MATTER OF POSSIBLE MODIFICATIONS TO THE ARIZONA CORPORATION
COMMISSION'S ENERGY RULES (DOCKET NO. RU-00000A-18-0284)**

Chairwoman Marquez Peterson,

At the Arizona Corporation Commission's ("Commission") May 5, 2021 Open Meeting, the Recommended Opinion and Order ("ROO") for the referenced docket received several amendments which passed. However, the amended ROO failed to receive the three minimum votes required for adoption. I was on the prevailing side as one of the three Nay votes.

Being on the prevailing side, I am respectfully requesting that the original ROO (i.e., unamended) for the referenced docket be placed on either the Commission's Contingency Open Meeting on May 26, 2021, or the Regular Open Meeting on June 8, 2021, for a vote on reconsideration. If the vote on reconsideration passes, I would like to call for a vote on the original ROO.

You have stated time and time again that you support 100-percent clean energy and even demonstrated that by voting last November for a 100-percent clean energy mandate. However, since that time, you have expressed concern over the possible increased costs of such a mandate to Arizona ratepayers, while I am extremely concerned over the increased costs to those same ratepayers if the Commission does not impose such a mandate.

In my above proposal, I see only positives for all who have been involved with this process for the last several years and especially for Arizona's citizens. I truly hope you agree.

Sincerely,

A handwritten signature in blue ink, appearing to read "Sandra D. Kennedy", is written over a light blue circular stamp.

Sandra D. Kennedy
Commissioner
